

## GIGANTES S3 SAFETY BOOTS

23MSS1801

- Safety boots in water repellent leather
- Toecap: Composite 200J
- Midsole: Non-metallic anti-perforation midsole
- Insole: Antistatic, anatomically and removable textile material with EVA back
- Sole: EVA and durable rubber, it has a high resistance to high and low temperatures
- Last: Comfortable
- Antistatic, oil- and chemical resistant
- EN ISO 20345:2011 S3 SRC

### Composition

- Upper: Black nubuck leather with black stitching
- Lining: 3D orange breathable lining with abrasion-resistant material on the internal heel

### Size

37 - 38 - 39 - 40 - 41 - 42 - 43 - 44 - 45 - 46 - 47

### Color

### Technologies

#### EVA

EVA stands for "ethylene vinyl acetate". It is a "rubbery" material by its properties; it is flexible and soft. It is a material with a light weight, which will allow the safety shoe to be light.

#### Composite safety toecap

Meets all requirements described under EN ISO 20345 and is also:

- Light compared to the standard steel toecap
- Temperature regulating (cooler in summer, warmer in winter)
- Anti-magnetic and anti-static
- Non-detectable by metal detectors

#### Antistatic

The use of antistatic safety shoes prevents static electricity overload in the human body, by sending these charges to the ground, in order to avoid a sudden electric discharge between electrically charged objects, following a contact.

## Chemical resistant

*The shoes have a resistance to chemical products.*

## Oil resistant

*The shoes have a resistance to oil products*

## Certificates

### EN ISO 13688

*General requirements for protective clothing.*
