CLOSE THE LOOP.

TOGETHER WE AIM TO CREATE A WORLD IN WHICH RAW MATERIALS ARE RECYCLED, WASTE IS REDUCED AND OUR IMPACT ON THE ENVIRONMENT IS MINIMIZED. WE ARE DETERMINED TO CONTINUALLY IMPROVE OUR PRODUCTS, PROCESSES AND PARTNERSHIPS IN ORDER TO ACHIEVE THIS OBJECTIVE. WE HOPE TO INSPIRE OTHERS BY EMBRACING THE POWER OF SUSTAINABILITY AND CIRCULARITY.

At HEROCK®, our aim is a closed-loop sustainability flow, the solution to achieving a circular economy. We believe that promoting sustainability isn't simply our responsibility but also an opportunity to bring about positive change. By working towards a closed-loop sustainability flow, we strive to reduce our environmental impact and pave the way towards a circular future.

According to the closed-loop system, products are recycled and reused at the end of their service life. A system that matches our vision perfectly.

We are convinced that **sustainable workwear** should be produced not only with due regard for the environment, but also designed to have a longer service life. By using high-quality materials and superior manufacturing techniques, we aim to deliver workwear that will withstand demanding working conditions and last longer.

Our **closed-loop** principle will ensure that our workwear is recycled and reused at the end of its service life rather than ending up in the waste bin. Using **innovative recycling methods** we are able to recover materials such as textile fibers and metals from discarded items of clothing, and reprocess them into new products. This reduces the demand for new raw materials and the impact on the environment, and contributes to the **preservation of natural resources**.

We also promote awareness and create **educational programs**. We aim to inform our customers and the wider community about the benefits of a circular economy, and about how they can proactively participate in closing the loop. We want to encourage them to return old workwear to us so that we can recycle and reuse it in new products. By joining forces we can have a powerful impact and make a difference in the world around us.

GREEN HEROES.

WE AT HEROCK® BELIEVE THAT SUSTAINABILITY ISN'T JUST A TREND, BUT A NECESSITY TO SAFEGUARD A VIABLE FUTURE.

Together we aim to create a world in which raw materials are recycled, waste is reduced and our impact on the environment is minimized. We are determined to continually improve our products, processes and partnerships in order to achieve this objective. We hope to inspire others by embracing the power of sustainability and circularity.

Trousers made from recycled polyester are a desirable and responsible choice for eco-conscious consumers while also meeting their style and performance expectations. Why choose eco-friendly products?

SUSTAINABILITY

Trousers made from recycled polyester help reduce the demand for virgin polyester production, preserving valuable resources and minimizing the environmental impact.

ECO-FRIENDLY MATERIAL

Recycled polyester diverts plastic waste from landfills and oceans, contributing to a cleaner and more sustainable environment.

ENERGY AND WATER SAVINGS

Reduced energy and water consumption in the production of recycled polyester compared to traditional polyester, makes it a more eco-conscious choice.

DURABILITY

Trousers made from recycled polyester are durable and long-lasting, which means replacing them less often and saving resources over time.

COMFORT AND PERFORMANCE

We ensure that these trousers offer comfort, flexibility, and performance suitable for everyday wear and various activities.

QUALITY ASSURANCE

We guarantee a high-quality product with our 2-year warranty.

REDUCED CARBON FOOTPRINT

By choosing these trousers made from recycled polyester, there is a significant reduction in carbon emissions resulting in a positive environmental impact.

TRENDY DESIGNS

Sustainability can be stylish! All our designs are fashionable and trendy so you have the right look on the work floor.

ETHICAL PRODUCTION

We ensure that our trousers are produced under ethical labor practices, creating a responsible and eco-conscious supply chain.

PACKAGING AND SHIPPING PRACTICES

Our eco-friendly packaging and shipping practices contribute to reducing waste and carbon emissions, in line with our trousers' sustainability.

WE FIX THE BASICS.

Providing our own electricity using a maximum number of solar panels on our buildings.

RENEWABLE ENERGY

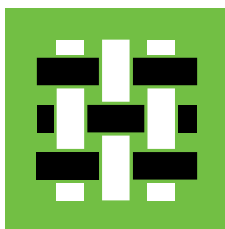

Maximum container loading.

CONTAINERS

Recycled, sustainably produced materials.

FABRICS

FLEET

Electrification of our vehicle fleet.

BAGS & PACKAGING

Recycled paper rather than plastic carrier bags.

LESS AIR FREIGHT

Limiting air freight by increasing our stock positions.

ECOLOGICAL FOOTPRINT

Limited number of production partners to promote optimum efficiency and minimize our ecological footprint.

The HEROCK® sustainability policy is based on several key basic principles. First and foremost, we aim to reduce our **ecological footprint** by using sustainable materials and production methods that are less damaging to the environment. Secondly, we employ **ethical and responsible production** processes, in partnership with suppliers who comply with **stringent social and employment standards**. We also stimulate a circular economy by **recycling and reusing materials**. By implementing these basic principles, HEROCK® is contributing to a more sustainable future for the workwear industry.
